25X1

1. The new aircraft assembly plant known as Rudy Letov II has been opened approximately 14 km. north of Prague. The plant is bounded on the northeast by the villages of Odolena Voda and Paneske Brezany and on the southeast by the village of Klicany. It is a subsidiary of Rudy Letov I, Prague-Letnany.

2. The factory is not yet completed, but the assembly of aircraft has begun. Some 160 Czech and Russian engineers and mechanics are employed at the factory, where MiG-15s are being turned out at the rate of two a day.

3. The aircraft are towed to a runway which lies to the south of the factory and are first flown by test pilots employed by Rudy Letov. As soon as the aircraft have been passed by the test pilots, they are flown off to an unknown destination.
